

NORTEK DAY 2016

APRIL 1 ON THE GOLD COAST

Everything you always wanted to know about current, wave and turbulence measurements, but were afraid (or embarrassed) to ask!

- Join Nortek experts and Australasian scientists as they present the latest technology for current, wave and turbulence measurements
- Receive hands-on assistance with data analysis, instrument configuration and deployment setup, directly from Nortek's technical staff
- Watch live field demonstrations of Nortek products

Interested in presenting your work?

We would love to have your presentation! Just submit an abstract (< 200 words) today for consideration to NortekSingapore@nortek-as.com But HURRY, limited space is available!

To register:

Visit: www.imbros.com.au

For questions contact:
